

## Prototype Details on Wagons:

### Key:

- **Code** - The wagon identification code.
- **Description** - A brief description of the wagon.
- **System** - The Railway system that the wagon with this code belongs too.
- **Gauge** - The gauge this wagon ran on.
- **Year** - The year this wagon was issued to traffic or this code was first used. Use this to match your codes and wagons to the period that you are running.
- **Model** - Identification of a model that can be modified to represent this wagon with this code.

Code	Description	System	Gauge	Year	Model
<a href="#">A</a>	Steel Louvred Van (4 wheeled)	SAR	Broad	1900	<a href="#">DA</a>

## Prototype Details on Wagons:

### Key:

- **Code** - The wagon identification code.
- **Description** - A brief description of the wagon.
- **System** - The Railway system that the wagon with this code belongs too.
- **Gauge** - The gauge this wagon ran on.
- **Year** - The year this wagon was issued to traffic or this code was first used. Use this to match your codes and wagons to the period that you are running.
- **Model** - Identification of a model that can be modified to represent this wagon with this code.

Code	Description	System	Gauge	Year	Model
<a href="#">FSB</a>	Flat Wagon, 36', 4 bogies	SAR	Broad	1972	FC

## Prototype Details on Wagons:

### Key:

- **Code** - The wagon identification code.
- **Description** - A brief description of the wagon.
- **System** - The Railway system that the wagon with this code belongs too.
- **Gauge** - The gauge this wagon ran on.
- **Year** - The year this wagon was issued to traffic or this code was first used. Use this to match your codes and wagons to the period that you are running.
- **Model** - Identification of a model that can be modified to represent this wagon with this code.

Code	Description	System	Gauge	Year	Model
<a href="#">WVX</a>	Box Van 56'	WAGR	Standard		<a href="#">WABX</a>
